This diagram illustrates the exploded view of a mechanical assembly, with components numbered 1 through 16. The assembly is organized into three main horizontal sections. The top section, enclosed in a dashed rectangular box, shows a sub-assembly consisting of two curved, blade-like components (4) mounted on a central shaft. This shaft is supported by two sets of bearings (2, 3) and secured with nuts (5). Below this, the middle section shows two identical sets of components, each including a ball (9), a nut (10), a spring (11), a washer (12), a pin (13), and a lever arm (14, 15). The bottom section features a large gear (16) at the base, with two long pins (7) and two lever arms (8) positioned above it. A bracketed component (6) is also shown, likely a mounting plate for the pins and levers.
